

HVAC Installer

If you are an HVAC Installer that has at least 3+ years of recent experience working in the residential field and typically do better work than most of the other installers you have worked with in the past, then we are looking for you! If you take pride in exceeding customer expectations and want to work for a great company-call us immediately. We are Horizon Services and we have been voted as the Best Place to work in both Delaware and Pennsylvania.

Enjoy a fun, family oriented work environment where your effort is recognized and greatly appreciated. Join a company who values each customer and each employee, and where each department is committed to providing exceptional service through strong teamwork. You will be given an opportunity to grow professionally, personally and financially.

Requirements:

- 3 Years residential HVAC Install experience
- Residential retrofits experience required
- Sheet metal fabrication and boiler experience a plus.
- Pre-employment motor vehicle check, drug screening and background check required.
